Convey Computer™ Corporation Signs HMK Supercomputing GmbH as Master Reseller

***HMK is First European Reseller for Convey's Hybrid-Core Computing
Solutions***

PORTLAND, Ore. (Nov. 16, 2009) – Convey Computer™ Corporation, the leader in hybrid-core computing, announced a master reseller agreement today with HMK Supercomputing GmbH headquartered near Frankfurt am Main, Germany.

HMK Supercomputing GmbH, founded by Helmut Mühl-Kühner and Ernst M. Mutke, will represent Convey in Germany, Switzerland, and Austria. HMK has more than 25 years of high-performance computing experience and helps innovative companies, such as Convey, achieve fast and effective access to European markets.

“We are very pleased to be represented in Europe by HMK, a company with solid credentials in high-performance computing,” said Bruce Toal, CEO and president, Convey Computer Corporation. “As customers in Europe deploy our energy-efficient, hybrid-core computing servers, HMK will be a valuable asset for solutions, support, and service.”

HMK serves approximately 500 organizations/companies worldwide. The products represented by HMK are found in data centers of all industries, medium and large businesses, research centers, and universities. “Convey’s hybrid-core

computer – the HC-1™ – is an excellent addition to our product portfolio because it delivers increased performance using less energy and with more application flexibility. The system represents the best of both worlds: commodity economics with custom performance,” said Helmut Mühl-Kühner, general manager of HMK.

About Convey Computer Corporation

Based in Richardson, Texas, Convey Computer breaks power, performance and programmability barriers with the world’s first hybrid-core computer—a system that marries the low cost and simple programming model of a commodity system with the performance of a customized hardware architecture. Convey brings decades of experience and intellectual assets to performance problem-solving. Its executive and design teams all come from successful backgrounds of building computer companies, most notably Convex Computer Corporation and Hewlett-Packard. Convey Computer investors include Braemar Energy Ventures, CenterPoint Ventures, Intel Capital, InterWest Partners, Rho Ventures, and Xilinx.
